THE MARKET GAP IN PS-08

Existing portals (LinkedIn, Internshala, Unstop) treat skills as **self-typed text strings**.

Companies don't want "keyword matches"; they need **mathematically verified proof** that a student has handled messy datasets, written automated tests, and adhered to software quality benchmarks.

OUR SOLUTION — THE CRYPTOGRAPHIC EVIDENCE CHAIN

We forge the missing connection between education & work:

1. UNIVERSITY ANCHOR

2. GIT EVIDENCE DIGEST

3. FACULTY RUBRIC (L1-L4)

4. ROLE GENOME MATCH

5. W3C VERIFIED HIRE ✓

Zero LLM hallucination • 100% human-verified provenance • W3C Standard.
